

### **Patti Cavin**

I fly out of SEA - Seattle/Tacoma Int'l Airport.

My travel time is flexible to accommodate arrival times with the exception of flying a 'red-eye' and judging in the morning.

My round trip mileage to the airport is 124 miles or \$20 a day airport parking and 62 miles which is more expensive. Willing to rent a car, have a really good navigation system on my phone but would like insurance coverage at the club's expense.

I usually can make do with a carry-on bag but also have one free checked bag on most airlines.

No special food needs, allergies or sensitivities. I'm an easy feeder.
