

2023 Championships Qualification and Info Sheet

The Qualifying period for Championships is August 1st , 2022 through August 1st 2023

Grand Champion division added!

For 2023 we are continuing the Grand Champion division. a division based purely off height groups, and no sub divisions. So this would be a group consisting of the Standard, Veteran and Veteran Handler dogs, all competing for one Grand Champion Award. The height groupings would still apply, so there will be a Grand Champion for the Miniature, Small, Medium, Large and X-Large divisions.

Returning Champion Added!

For 2023 we are continuing the returning champion trophy. we are going to be adding a tower that can be attached to the division winners trophy if they had won a division the year prior. An Example would be winning the Elite-Standard Large division in 2022, and then coming back and winning the Elite-Veteran-Large division in 2023.

This would create an added level to your trophy, showing that you are a returning Champion who won two years in a row.

Elite Level Qualifications

- At least 100 points must have been earned in the current qualifying year from any combination of the Regular and Chances classes
-
- 2. A maximum of 50 points of that 100, may come from the Open level, the rest MUST come from Elite
-
- 3. If a dog is 9 or older on the first day of Championships they MUST enter the Veterans division. If a dog is 10 or older on the first day of the Championships, then they MUST enter into the Double Digit division.
-
- 4. Dogs MAY enter the Veterans division at age 7 if they wish.

What To Expect in the Elite Divisions:

- Longer courses. The average length of courses could be in the 22-24 obstacle range.
- Consistently challenging design. While all NADAC courses have some element of difficulty, some may be easier (for certain dogs and handlers) than others. At Championships, the courses will all lean more towards the more difficult.
- Full set of obstacle challenges in each round. While some rounds may have a theme, such as the Jumpers round or Touch n Go round, each and every round will generally have the full set of equipment tests on course.
- Distance tests. These tests are NOT bonus lines. But they will typically be a sequence of 2-5 obstacles where you are can stay behind the line, similar to Chances. This line will be anywhere between 10-20 feet away from the farthest obstacle in the test.

If the handler successfully completes the distance challenge, they will be awarded 10 bonus points

Pre-Elite Qualifications

At least 80 points must have been earned in the current qualifying year from any combination of the Regular, and Chances classes, with the exception that a dog entered in Pre-Elite cannot have earned more than 120 points in Elite Regular and Chances combined, in their lifetime up to August 30th 2023.

If a dog earns more than the maximum they will be moved into the Elite division

What to expect in the Pre-Elite Divisions:

- Courses similar to an Elite level challenge. Dogs should be comfortable doing a full set of 12 weave poles, multiple contacts and challenges comparable to an Elite level course on a normal weekend. In the themed runs, such as the Jumpers round or the Touch n Go round, there may be more repetitions of certain obstacles than on a regular weekend, though never more than 12 poles at one time.
- Shorter courses than the Elite Division. The Pre-Elite course typically has changes from the Elite course. These changes can be either a reduced number of obstacles, or reduced challenge, or both. There will be distance test at the Pre-Elite level.
- Larger groupings. Because Pre-Elite is not the main event we do not split up the groups like we do for the Elite division. There are only 5 divisions: X-Large, Large, Medium, Small and Mini. The only other added division may be if we have enough Junior Handlers in Pre-Elite to make a group. Pre-Elite should be viewed as an opportunity for dogs that aren't quite ready for the main event to still get a chance to experience the environment and camaraderie of the event.
- Pre-Elite ribbons and overall awards are smaller than the Elite Divisions (but still pretty darned nice!).
- Distance tests. These tests are NOT bonus lines. But they will typically be a sequence of 2-5 obstacles where you are can stay behind the line, similar to Chances. This line will be anywhere between 10-20 feet away from the farthest obstacle in the test.
- If the handler successfully completes the distance challenge, they will be awarded 10 bonus points

Scoring for both Elite and Pre-Elite:

- Scoring is done on a time plus faults system. Each round will have a base number of points that everyone starts with. For this example we will use 150 as our base number, keep in mind for the actual event this number can and will fluctuate depending on the course. When your dog runs their time and any faults incurred will be subtracted from this number. So a dog that ran in 25.00 seconds with 10 course faults would have a score of 115.00. This score is what determines your placement in your division.
- The base number changes depending on the length of the course and the challenges involved. A more challenging course that takes a longer time to run gets a higher base number, while a simpler course that runs very quickly gets a lower base number.
- If the Pre-Elite course is shorter than Elite, they will start with a lower base number to reflect the shorter course

The winner of each division is whomever has the highest score over all 7 rounds combined.
Placements

Placements

- Placements will go out to 8th regardless of entry size, assuming there are 8 dogs in that division. If there are fewer dogs, the placements will go up to the last dog in that division. Dogs who are eliminated do not receive a ribbon for that round.
- There must be at least 3 dogs in a group for that group to avoid being merged with their next closest competitive group.

Stakes:

Please refer to page 35 in the NADAC rulebook for information on the NADAC Stakes program and on the sections required.

Only Bonuses/Distance Challenges from the Regular class count towards Championships qualifying.

Starter Stakes:

Dogs must have 150 points in their lifetime in Elite Chances, and TWO (2) bonuses or distance challenges of any value from the Regular Agility Class.

*If the dog has 200 or more Bonus or Distance Challenge **lifetime** points in the Regular class, they are not eligible for the Starter Stakes Division.*

Silver Stakes:

Dogs must have earned at least Four (4) three section Bonuses

OR

Two (2) Three section Bonuses **and** Four (4) two section Distance Challenges.

Super Stakes:

Dog must have earned:

Four (4) 30 point section Bonuses

OR

Two (2) 30 point section Bonuses **and** Four (4) 25-point section Bonuses

Stakes dogs must enter Champs at the level they are qualified for.

- **Stakes dogs must enter Champs at the level they are qualified for.**

Stakes Scoring:

Scoring will be the same as the other divisions. With bonus points being added on.

The stakes cups and sash's are still going to be given out for exemplary performance in each round and overall performance throughout the event.

Bonus and Distance Challenge Sections. For more information please refer to page 35 of the NADAC rulebook.

Walkthroughs and briefings:

- The morning briefing takes place at 7 AM each day of the event following the national anthems.
- Thursdays briefing will end at 7:45 AM or earlier if there aren't many questions.
- Friday, Saturday and Sunday briefing will end at 7:20 or earlier if there aren't many questions.
- Walkthroughs for all groups will directly follow the morning briefing.
- Order of walkthrough groups will follow the running order for the day, which will be available on the Championships page of the NADAC website.
- Groups will be combined in walkthrough so that there are between 30 and 50 handlers in each walkthrough group.
- Run order and walkthrough orders will vary each day, so if you are in the first group on the first day, you won't likely be in the first group on the following days. This ensures that nobody has all early runs or all late runs, and makes it fair for everyone.

Team Info:

The team event for this year will consist of cumulative scores from rounds 1 through 5, with a relay round occurring On Sunday Morning which will count for 50% of the teams score for the week.

Teams are encouraged to be creative with their team names and costumes!

Misc. info:

- Number of dogs who go to finals: The number of dogs going to finals is decided by allowing all dogs who are within 30 points, of the third place dog. So if the dog in third place has 650 points, we would be bringing in any dog who has more than 620 points into finals.
- Each Divisions group is based on your dog's wither height.
- There are five main height groups for Championships: X-Large, Large, Medium, Small and Mini
- The height cutoffs for each group are:

22+ Inches at the withers = X-Large

Over 18 up to and including 22 Inches at the withers = Large

Over 14 up to and including 18 inches = Medium

Over 11 up to and including 14 inches = Small

Under 11 inches = Mini

For each main division there will likely be a **sub-division for your dogs height**. Examples would be:

Medium Veteran Dogs

Large Veteran Dogs

Large Standard Dogs

Medium Standard Dogs

We do this to keep the competition comparable to the dogs competing. Since there are a wide variety of options in NADAC for your dog to reduce their jump height, it isn't fair to place the competitions by jump height, as you could very well have a Proficient Standard Terrier jumping 12 inches, and a Skilled Veteran Border Collie jumping 12 inches. And having those dogs compete against each other is not a fair representation for the dog at the event.

Possible Divisions at Championships

There is a wide variety of entry options when coming to Championships.

As mentioned earlier Pre-Elite only gets split up by height group, but the Elite divisions get a much wider subset of divisions. The possible options and criteria are as follows:

Standard: This is for dog under 7 years of age.

Veteran Dog: Dogs taking the Veterans Height break and entering Champs as such. If your dog is 9 years or older on the start of the event date you **must** enter this division.

Veteran Handler: Teams that are taking the Veteran Handler height break and entering Champs as such.

Double Digit: Dogs that are 10 years of age or older. If your dog is 10 years or older on the start of the event date, you must enter this division.

Junior Handler: Open to any handler entering the event as a Junior Handler. (Junior Handlers are those who are 17 years or younger on the start date of the event)

It is suggested that anyone heading or even thinking about heading to Championships join the NADAC Forum (available at www.nadacforum.com). There will be a Champs-specific group discussion in which many other questions will be answered, regarding such things as crating, RV parking, set up times, etc.
